

the health and welfare of abused or neglected children, including instituting legal proceedings. The new clause (K) includes specific statutory reference to the authority to institute legal proceedings only because questions have occasionally been raised about the authority of particular child protective services agencies to take such actions in cases involving withholding of medically-indicated treatment from disabled infants with life-threatening conditions. Under new clause (K), States have the flexibility to determine the specific agency or agencies within their child protective services systems, to exercise that authority. State authority to utilize other agencies, in addition to the child protective services system, for these purposes would be unaffected by the legislation.

ADDITIONAL GRANTS TO STATES

The amendment (in section 201(c)(2)) would add a new subsection 4(c) to the Act to authorize the Secretary to make additional grants to the States for the purposes of developing, establishing, and operating or implementing (1) the procedures or programs required under the new clause (K), (2) information and education programs or training programs (for the purposes of improving the provision of services to disabled infants with life-threatening conditions) for professional and paraprofessional personnel concerned with the welfare of such infants, including personnel employed in child protective services programs and health-care facilities, and for parents of such infants, and (3) programs to help obtain or coordinate necessary services, including existing social and health services and financial assistance for families with disabled infants with life-threatening conditions as well as those services necessary to facilitate adoptive placement of such infants who have been relinquished for adoption.

REGULATIONS AND GUIDELINES

The amendment (in section 202) would direct the Secretary, within 90 days of the date of enactment, to publish for public comment proposed regulations to implement the requirements of the new clause (K), and to publish final such regulations within 180 days after enactment.

It also would direct the Secretary to publish, within 60 days after enactment, interim model guidelines to encourage the establishment within health-care facilities of committees which would serve the purposes of educating hospital personnel and families of disabled infants with life-threatening conditions, recommending institutional policies and guidelines concerning the withholding of medically indicated treatment from such infants, and offering counsel and review in cases involving disabled infants with life-threatening conditions. Not later than 150 days after the date of enactment and after notice and opportunity for public comment, the Secretary would be required to publish the model guidelines.

REPORT ON FINANCIAL RESOURCES

The amendment (in section 203) would require the Secretary to conduct a study to determine the most effective means of providing Federal financial support other than the use of funds provided through the Social Security Act, for the provision of medical treatment, general care, and appropriate social services for disabled infants with life-threatening conditions and report the results of such study to the appropriate committees of the Congress not later than 270 days after the date of enactment. The report to the appropriate Committees would also be required to contain such recommendations for legislation to provide such financial support as the Secretary considers appropriate.

TRAINING, TECHNICAL ASSISTANCE AND CLEARINGHOUSE ACTIVITIES

The amendment (in section 204) would direct the Secretary to provide, directly or through grants or contracts with public or private nonprofit organizations, for training and technical assistance programs to assist states in meeting the requirements of new clause (K) and for establishing and operating national and regional information and resource clearinghouses to provide the most current and complete information regarding medical treatment procedures and resources and treatment for disabled infants with life-threatening conditions. The funds to carry out these activities would be provided from the funds, other than those funds made available for basic States grants under section 4(b)(1), otherwise available to the Secretary to carry out activities under the Act (meaning the Child Abuse Prevention and Treatment Act).

STATUTORY CONSTRUCTION

The amendment (in section 205) would provide that no provision of or any amendment made by the Act is intended to affect any right or protection under section 504 of the Rehabilitation Act of 1973.

It would also provide that no provision of or any amendment made by the Act may be construed to authorize the Secretary or any other governmental entity to establish standards prescribing specific medical treatments for specific conditions, except to the extent that such standards are authorized by other laws.

It would also contain a standard severability provision in the event that a particular provision of or any amendment made by the Act is declared unconstitutional by a court.

AUTHORIZATION OF APPROPRIATIONS

The amendment (in section 206) would increase the authorization of appropriations—from the levels in the bill as reported (\$27 million for FY 1984, \$34 million for FY 1985, \$35.5 million for FY 1986, and \$37.08 million for FY 1987)—under the Act by \$5,000,000 for each fiscal year for the purpose of making the additional grants to the states to implement the provisions of new clause (K) and to establish the information and education and training programs and the programs to help obtain or coordinate necessary services for disabled infants with life-threatening conditions authorized under the new section 4(c).

The amendment would retain the earmark contained in S. 1003 as reported of \$9,500,000 in each fiscal year for the carrying out of the provisions of section 4(b)(1), relating to basic state grants, and \$4,000,000 in each fiscal year for identification, treatment, and prevention of sexual abuse.

It is the firm intention of the sponsors that appropriations for the new section 4(c) program should be in addition to appropriations at the authorization levels contained in the amendment for the section 4(b)(1) basic state grant program and for the sexual abuse, identification, treatment, and prevention program and that neither of these existing programs should be reduced in funding in order to provide funds for the new section 4(c) program.

EFFECTIVE DATES

The provisions of the Act and amendments made by the Act would be effective upon the date of enactment, except that the amendment establishing new clause (K) as a requirement for participation in the state grant program does not become effective until one year after the date of enactment. The amendment further provides that in the event that, prior to the clause (K) effective date, funds have not been appropriated

pursuant to section 5 of the Act (as amended by section 104 of this Act) for the purpose of grants under new section 4(c), the Secretary may grant to any State which has not met the requirements of new clause (K) a waiver of such requirements for a period of not more than one year, if the Secretary finds that such State is making a good faith effort to comply with such provisions.
